Mayors Message – Hyrum is a great place to live. You have probably noticed an increase in the number of homes being built. It is predicted that our population is going to increase at a faster pace than we have previously experienced. Community leaders continue to provide for continued, orderly growth, both commercial and residential, through a revised general plan and appropriate zoning.

As the Thanksgiving holiday approaches, I like to reflect on the many things I am grateful for. I am grateful for city employees, volunteers & citizens who contribute to our community making this a great place to live. I encourage you to stop and thank the people who have made a difference in your life. I want to share my gratitude for everything – I have been blessed with family, friends, and continued support from everyone. It has been a privilege to serve as your mayor.

Sincerely,
Mayor Stephanie Miller

Logan City Environmental Department - The Logan City Environmental Department has been performing studies to help us better understand recycling contamination in hopes of better combating the problem. Our current recycling contamination rate is 18% and we would like to see lower contamination rates - around 10-12%. This past summer, employees looked in cans to identify contaminants. Approximately 33% of the cans we looked in had zero contamination! However, in cans that had contamination present, nearly 87% of the contamination is one of these 7 items: Plastic Bags, Food Wrappers, Tissue, Styrofoam, Plastic without the Recycling Symbol, Pizza Boxes, or Disposable Dishware. We ask that Cache County residents do not place these items in their blue curbside recycling container. Attached is a graphic that shows you what can be recycled, along with some of the items we commonly see in recycling cans that should not be placed in the can! Recycling questions can be answered by calling our customer service line at [435-716-9755](tel:435-716-9755) or by e-mailing Emily Malik at emily.malik@loganutah.org.
