# Utah Pollutant Discharge Elimination System Storm Water Program Small MS4 Report Form

The purpose of this report is to contribute information to an evaluation of the UPDES small municipal separate storm sewer system (MS4) permit program. Consistent with 40 CFR §122.37 the Utah Department of Environmental Quality is assessing the status of the storm water program. A "no" answer to a question does not necessarily mean noncompliance with your permit or with the federal regulations. In order to establish the range of variability in the program it is necessary to ask questions along a fairly broad performance continuum.

1. MS4 Information

Hyrum City Corporation					
Name of MS4					
Ron	Salvesen		City Adminis	strator	
Name of Contact Person (First)	(Last)	(	Title)		
(435) 245-6033	rsa	alvesen@hyrumcity.	com		
Telephone (including area code)	Em	ail			
60 West Main					
Mailing Address					
Hyrum		<u>UT 8</u>	34319		
City		State Z	IP code		
What size population does your M	S4 serve? 7,751	UPDES number U	TS090034		_
What is the reporting period for the	is report? (mm/dd/yyyy)	From 07/01/2015	to 06/3	0/2016	
2. Water Quality Priorities	S				
A. Does your MS4 discharge to v	waters listed as impaired on	a state 303(d) list?	$\checkmark$	Yes  \[ \subseteq N	lo
B. If yes, identify each impaired the TMDL assigns a wasteloa necessary.					
Impaired Water	Impairment	Approve	ed TMDL	TMDL assigns	s WLA to MS4

### 9. Evaluating/Measuring Progress

A. What indicators do you use to evaluate the overall effectiveness of your storm water management program, how long have you been tracking them, and at what frequency? These are not measurable goals for individual management practices or tasks, but large-scale or long-term metrics for the overall program, such as macroinvertebrate community indices, measures of effective impervious cover in the watershed, indicators of in-stream hydrologic stability, etc.

Indicator	Began Tracking (year)	Frequency	Number of Locations
Storm Water Fair - Increased	2006	Annually	1
attendance at fair each year			
Community Storm Water	2007	As needed	
Awareness - Less debris/dirt			
in gutters			

B. What environmental quality trends have you documented over the duration of your storm water program? Reports or summaries can be attached electronically, or provide the URL to where they may be found on the Web.

#### 10. Additional Information

In the space below, please include any additional information on the performance of your MS4 program. If providing clarification to any of the questions on this form, please provide the question number (e.g., 2C) in your response.

### **Certification Statement and Signature**

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
