Each team bats their entire line-up. Don't worry about out or safe calls until June 26th. Batters get one base if it is hit in the infield and two bases if it is hit to the outfield. One the entire team has hit, have them run all the bases in the correct order and then let the other team hit. Let the entire team play defense, help the players learn the different postions. We hope to have each team bat at least twice per game. Please help the players learn how to hit the ball, throw the ball and catch the ball. Please make it so fun that they want to play again.
